DISCLAIMER: This HYALGAN® CMS-1500 Sample Claim Form is intended solely for use as a resource tool to assist physician office and hospital outpatient billing staff regarding reimbursement issues. Any determination about if and how to seek reimbursement should be made only by the appropriate members of the physician office or hospital outpatient staff in consultation with the physician and in consideration of the procedure performed or therapy provided to a specific patient. FIDIA FARMACEUTICI S.p.A/FIDIA PHARMA USA INC. do not recommend or endorse the use of any particular diagnosis or procedure code(s) and makes no determination if or how reimbursement may be available. Of important note, reimbursement codes and payment, as well as health policy/legislation are subject to continual change; information contained in this version of the HYALGAN® Reimbursement Guide is current as of March 2021.

REIMBURSEMENT

The following section describes public (Medicare/Medicaid) and private payer reimbursement information relevant to HYALGAN® and its administration in the physician office setting.

Note: Because of variability in coverage and reimbursement across Medicaid and private payer plans, it is particularly important to conduct patient-specific insurance verifications for HYALGAN® therapy for patients with these types of healthcare insurance. To contact a reimbursement specialist for conducting patient-specific coverage and reimbursement, please call the *HYALGAN® Support Hotline* at **1-866-7-HYALGAN (1-866-749-2542)**, Monday to Friday, from 9:00 AM to 8:00 PM EST.

Medicare

When HYALGAN® is provided in the physician office setting, both the product and the services associated with its administration may be reimbursed by Medicare. The payment methodology for HYALGAN® is expected to be based on its Average Sales Price (ASP) plus 6%.* Please note that Medicare's drug and product payment rates change on a quarterly basis. In addition, services that are associated with HYALGAN® administration would be reimbursed based on the Medicare Physician Fee Schedule (MPFS).

HCPCS Code	Description
J7321	Hyaluronan or derivative, HYALGAN®, for intra-articular injection, per dose

CPT	Description
20610	Arthrocentesis, aspiration and/or injection; major joint or bursa (eg, shoulder, hip, knee joint, subacromial bursa), without ultrasound guidance
20611	Arthrocentesis, aspiration and/or injection, major joint or bursa (eg, shoulder, hip, knee, subacromial bursa); with ultrasound guidance, with permanent recording and reporting

In general, Medicare pays 80% of the allowed amount of the drug/product and service. Medicare beneficiaries are responsible for 20% of the allowed amount of the drug/product and service once a deductible has been met. If a Medicare beneficiary has a source of secondary coverage, that insurance may be used toward this cost-sharing requirement.

*This allowed payment is subject to quarterly changes

Private Payers

Private payers typically negotiate payment rates for HYALGAN[®], when administered in the physician office setting, that may be based on a fee schedule, a percentage of billed or allowable charges, or a percentage of Wholesale Acquisition Cost (WAC) or ASP. For each patient, cost-sharing requirements, such as coinsurance and annual deductible amounts, will vary by individual insurance plan.

Medicaid

State Medicaid programs have different payment rates for HYALGAN[®] when administered in the physician office setting. Medicaid payment for HYALGAN[®] and its associated administration services may be based on state-specific or MCO fee schedules. In the physician office setting, HYALGAN[®] may be reimbursed based on methodologies such as a percentage of WAC or invoice price. Certain state Medicaid programs may require nominal cost-sharing by Medicaid beneficiaries for drugs/products and services.
